Table Talk

OCTOBER 2021

Welcome FALL!

Our membership is going strong, but we still have room for more. If you know someone that is contemplating getting a membership, let them know about all the benefits.

1. Lowest rates in the North State.
2. A great Men's and Ladies Club.
3. Discounts on merchandise in the Pro Shop.
4. Great people to join and play a round of golf with.
5. Superb staff in all departments.
6. Great golf course with some of the best greens in Northern California.
7. Member Socials
8. Full restaurant and bar.

If you know of someone that is on the fence about a membership remind them that we do have membership specials and to keep a close eye on what is coming.

With 2021 coming to a close, we want to highlight some of the things that have taken place and is coming up.

To start, the Oroville City Championship is right around the coming on October 16th and 17th. This is an individual event that is a 36 hole tournament. Our Men's Club kicks off their 2022 season on October 24th. We will see if Jamie Scharff, our club champ can retain his title in 2022. As for our Ladies Club, they had a great Invitational as usual. They had 120 ladies here and could have had more. This event fills up in less than a week once they send out the invitations. Sandy Goble was our 2021 champion. Great job Sandy and keep up the good work. As for the golf course, the project that the Friends of the Golf Course has going on behind 18 green is almost completed. A new clock was added to the 10th tee, donated by the Friends of the Golf Course. The FOGC have many projects that have been approved and will be started very soon. If you are not familiar with the Friends of the Golf Course, please ask someone in the pro shop. They have made many improvements to your TMGC experience.

BUNKERS

Just wanted to let everyone know what is going on with our bunkers. They are old! When a bunker is built there is a piece of material that is put under the bunker to allow the water to drain and keep the sand from washing away. Well the material we have there has corroded away. We use our motorized bunker rake on the bunkers at least twice a week to fluff them up, but we do not have much sand in them. A quick fix will be to buy sand annually to fill the bunkers. But in time due to rain and irrigation, the sand will wash away. We are aware of the bunkers conditions and we will do our best to make them playable for you in the near future.

UPCOMING EVENTS
