# Table Talk

DECEMBER 2021

## Corinna's Comments:

As everyone is aware, the Covid pandemic has wreaked havoc on the restaurant industry. Running a successful restaurant has always been a challenge. Throw in the rising food costs, supply shortages, increases in minimum wage, staffing during a public health threat, (among numerous other challenges) and it became nearly impossible for most to survive. In my over 30 years of managing in food service, I have never experienced anything close to this.

Here at TMGC, the Bar and Grill were lucky. We are fortunate to operate at one of the greatest courses in Northern California. We have faced many, many challenges, though. In the coming year we are facing even more. California will implement regulations (that were approved by voters) affecting pork and chicken production. These regulations will raise the cost of eggs, chicken, ham, bacon, etc. The price of beef has already been drastically affected due to the pandemic as well as the drought, and is likely to keep rising. The rising costs and lack of availability of disposables is also extreme. Minimum wage will increase to \$15/hour. It takes a lot of resources and smart decisions to run a successful restaurant in this state. We are doing our best.

That brings me to some changes you'll notice at the Bar and Grill. The selections on the menu have already been reduced. That helps with food costs, waste, and efficiency. Some menu prices will increase, but as limited as possible. We will be opening at 8 am during the week, and 7 am on Sat/Sun. Some alcohol prices have been raised, but so far, not beer prices. We have cut out "Happy Hour" in an effort to keep beer costs at a value all day. Our goal is to provide delicious food and drinks at a good value, in a friendly and welcoming atmosphere. Please let us know how we are doing.

Thank you for being wonderful customers. We appreciate every single one of you and look forward to many more successful years here at this wonderful course!
