On the Course

AUGUST 2022

The maintenance crew has been very busy. With temperatures in the hundreds for most of July, the crew has been watering like crazy. Not to mention fixing broken irrigation power lines and of course sprinkler heads. While doing all of this they are short handed by a person or two. We would like to let you know that Roberto Esparza Jr. has been doing a great job keeping the staff motivated and doing the best they can do to stay on top of keeping this golf course green.

We are heading into August. August is typically the hottest and driest month of the year. We will continue to day water to stay on top of the course conditions. Sorry for any inconvenience this may have caused. We are still planning on putting in some work on the gold tee boxes. With this heat we could not get to those at this time.

Make sure you check in at the pro shop desk before you tee off. We have some new people working in there and they do not know everyone.

Keep your eyes open for some new winter apparel coming in October. This year we will be bringing in Columbia outerwear. We are looking forward to carrying a brand that everyone knows.

New Batteries for our Golf Carts

Starting at the beginning of August we will be getting new batteries for ALL of our golf carts. This will take some time to complete because batteries are hard to get right now. We will be putting in 270 batteries in these carts. These carts are only 3 years old and have been run very hard.

This is why it is very important that we have everyone possible share a cart when you can.

The wear and tear on these carts has been strenuous and we want to make sure we have running carts for our members and outside play.
